- \* Always, think in layers of clothing and try to stay away from cotton. We can have snow one moment and it'll be hot the next. Also, conditions at camp will vary from higher country.
- \* All items except your sleeping bag need to fit in one duffel bag & if you fit bag it too, that's good.
- \* Meat processing and taxidermy costs are your responsibility.
- \* Gratuity is not included but always appreciated for a job well done.
